Agricultural and Industrial Fair.

Yesterday was decidedly a "big day" at the Fair. It is estimated that fully five thousand persons visited the grounds, and some place the number at even a higher figure.

The Main building was fairly packed from end to end, and those who attempted to stem the tide of rushing humanity were soon convinced of the fallacy of their undertaking, and fell into the regular stream of spectators.

The St. John's Cadets, on leaving the grounds yesterday evening, gave three cheers for the Agricultural and Industrial Association and three more for the Alexandria Light Iafantry. The cheers were given as only boys can give them, and were evidently from the

Quity a feature of the exhibition was the steam engine and threshing machine of Mr. Samuel Pullman, both of which were hard at work yesterday evening, and saluted the military visitors with loud and shrill blasts of the whisle.

The "Fair Journal" of Messrs. Ramey & Son, and the "Programme," by Mr. T. A. Broadus, are eagerly sought for, and the office of the former gentleman, in the grounds, is much frequented.

the Main building is a bust in clay, made with a penknite by Miss Hallie Hutton, of this city. It is the young lady's first attempt, and reflects great credit on her artistic skill.

Is has been ordered by President Smoot that all exhibits in the Ludies' Department shall be called for and delivered between one and five o'clock p. m. to morrow. No one will be admitted within the building, but goods will be handed out of the doors on the presentation of the receipts therefore. The production of the receipts is imperative.

The music last night was furnished by Mare's band, a band recently organized by and com posed of some of the youthful musicians of the city, whose performance was much admired. The attendance this morning was large, and n uch interest was exhibited.

Most of the day has been spent in displaying the various horses, cattle, &c., which were paraded around the grounds several times.
